

CERTIFICATE

WE ARE PROUD TO PRESENT THIS CERTIFICATE TO

Kubra BOZDOGAN

FOR SUCCESSFULLY COMPLETING AND PASSING THE EXAMINATION OF THE

ISO / IEC 27001:2022 - ISMS INFORMATION SECURITY MANAGEMENT SYSTEM FOUNDATIONS TRAINING

DURATION: 10 HOURS

COMPETENCIES

Through this foundational course, the participant gained a comprehensive understanding of the international standard ISO/IEC 27001:2022 Information Security, Cybersecurity and Privacy Protection – Information Security Management Systems – Requirements, focusing on the principles, structure, and implementation of an effective ISMS.

This training provides participants with the essential knowledge to contribute to the establishment, implementation, maintenance, and continual improvement of an organization's ISMS in alignment with ISO 27001.

KEY LEARNING OUTCOMES

- Core ISO 27001 Principles: Understanding the purpose, scope, and high-level structure (Clauses 4–10) of ISMS.
- Information Security Risk Management: Conducting risk assessment and treatment in alignment with ISO 31000 and Annex A controls.
- Leadership & Context: Defining organizational context, stakeholder expectations, leadership roles, and policy requirements.
- Planning & Objectives: Setting measurable objectives and integrating ISMS into corporate strategy and processes.
- Operational Implementation: Managing documentation, awareness, communication, and operational control of ISMS processes.
- Performance Evaluation: Executing internal audits, management reviews, and promoting continual improvement.
- Annex A Controls Overview: Understanding organizational, human, physical, and technological control categories aligned with ISO/IEC 27002:2022.
